

P20961.A04

module containing connector-connecting circuits connected to the connector mounts, a fuse circuitry module containing fuse-connecting circuits connected to the fuse mounts, and a relay circuitry module containing relay-connecting circuits connected to the relay mounts;

said fuse-connecting circuits containing first busbars with first tabs, and said relay-connecting circuits containing second busbars with second tabs;

at least one of said first busbars and said second busbars being formed of a resilient conductor harder than pure copper;

said first tabs and said second tabs formed of a resilient conductor harder than pure copper so that said first tabs and said second tabs are directly connectable to said fuses and said relays, respectively; and

said connector-connecting circuits containing third busbars, said third busbars formed of pure copper.

Sub  
B,  
amended.

#### REMARKS

Initially, Applicants would like to express appreciation to the Examiner for the detailed Official Action provided and for the acknowledgment of Applicants' Claim for Priority and receipt of the certified copy of the priority document. Applicants also acknowledge the Official Draftsperson's objections to the drawings on the Form PTO-948. Applicants are submitting herewith a Letter to the Official Draftsperson along with new
